Deferred Appendix

Final Briefs

May 16, 2013

The parties are advised that the court will look with extreme disfavor upon any motion to extend these briefing deadlines.

Appellants must raise all issues and arguments in the opening brief. The court ordinarily will not consider issues and arguments raised for the first time in the reply brief. The parties will be notified by separate order of the oral argument date and composition of the merits panel.

Parties are strongly encouraged to hand deliver the paper copies of their briefs to the Clerk's office on the date due. Filing by mail could delay the processing of the brief. Additionally, parties are reminded that if filing by mail, they must use a class of mail that is at least as expeditious as first-class mail. See Fed. R. App. P. 25(a). All briefs and appendices must contain the date that the case is scheduled for oral argument at the top of the cover, or state that the case has not yet been scheduled. See D.C. Cir. Rule 28(a)(8).
